

MEDIUM CINEMATIC MOTOR SCREEN

IR and Radio remote control included!

The new MEDIUM Cinematic screen is the perfect choice for **home cinema or price-conscious business applications**. It has a durable all-metal **white hexagonal casing** for wall & ceiling installation. Its **1.1 gain** matte white screen material is durable and easy to clean. The **160 degrees wide viewing angle** allows for large group presentations.

It is easy to control by either low voltage 3-way wall box, **radio frequency (RF) remote or infrared (IR) remote** which are **all** part of the standard scope of delivery. The **IR/RF receiver is integrated** in the housing and thus eliminates the need for a wall box.

Technical Details:

- 1.1 gain matte white screen material/woven fabric basis
- Viewing angle up to 160°
- Internal 12 volt trigger enables drop/rise cycle to synchronize with the projector's power cycle
- Ships fully assembled with plug & play design and 3-prong power connection
- Adjustable vertical limit switch to regulate drop/rise settings
- Synchronized motor allows silent operation with extended operational longevity and low power consumption
- Voltage 220 V
- Available in 1:1, 4:3 and 16:9 formats
- 2 years warranty
