

## Design-Roll Manual and Design-Roll Electric IR – the ideal projection screens for elegance in home-cinema viewing

- Stylish aluminium casing, painted silver-grey
- Diffusely reflecting screen surface for uniform distribution of light
- Suitable for wall-mounting and ceiling-mounting
- Mounting attachments freely positionable at right and left on rear of casing
- Black border for contrast optimisation

- 230V/50Hz geared motor for quiet retraction and extension

The **Design-Roll Manual** projection wall has a hand-operated mechanism instead of an electrical motor for rolling the screen up and down.

### Screen surface

- Front projection, **type D**
- DIN 19045 gain factor, approx. 1.2
- Matt white, woven fabric base
- Back: opaque

### Design-Roll Electric IR

- Plug-and-Play connectivity (power supply over mains plug)
- Cable exit at left
- IR remote control

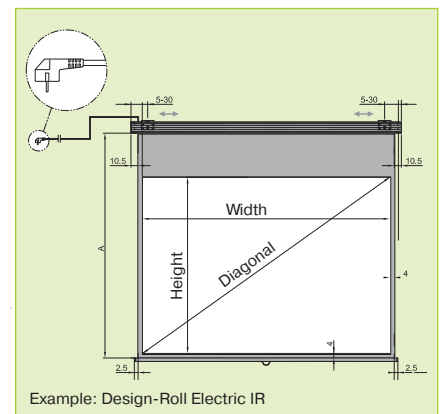

Design-Roll Electric: position the mounting attachments to suit

Design-Roll Electric: infrared control with handheld unit and mains plug
