With wall/
ceiling spacer

With wall/ceiling spacer
and swivel head, tilted

# Rollux 2 – pull down, tilt and pivot in one step

Rollux 2
- Distortion-free projection using INC (inclination) technology
- Optimal flatness thanks to the scissor mechanism on the back (therefore stepwise height adjustment)
- Wall or ceiling mounting, single mounting point (central)
- Octagonal sheet steel casing
- Casing colour: white, RAL 9010

With optionally available accessories, Rollux 2 can:
- Tilt from 0° to 15°
- Swivel steplessly left-to-right

Screen surface
- Front projection, **type D**
- DIN 19045 gain factor, approx. 1.2
- Matt white, foil base
- Back: black, virtually opaque
